

PLASTIMUR

Likestone Distaccante P

Release agent antiquing waterproofing in powder

CODE 4017

COLORE

Coloured power

PACKAGING

Drums kg 13

STORAGE

Unlimited duration if well-sealed in its original packaging

CHARACTERISTICS

LIKESTONE DISTACCANTE P is a fine pre-mixed product in powder, ready to use, non-stick, release agent, antiquing, waterproofing, neutral and coloured, it is applied on LIKESTONECORAZZANTE treatment; it is employed to avoid that moulds grip on the concrete during the flooring printing phase fresh on fresh, moreover it creates antiquing effects and chiaroscuro colour contrasts, which highlight the natural effect of the stones or anyother else you want to imitate.

APPLICATION FIELDS

It is applied on concrete surfaces manually, with the fresh on fresh technique.

PREPARATION

SUBSTRATES PREPARATION

Substrates must be exclusively made of concrete and at their first gripping phase.

PRODUCT PREPARATION

Product in powder ready to use.

PRODUCT APPLICATION

The product is to apply manually on concrete surface, fresh, poured, smoothed, and treated with two or more coats of pouring technique with LIKESTONE CORAZZANTE as non-stick, release agent, then continue with the printing phase using adequate rubber moulds.

CONSUMPTION

About 80 m² with one drum of kg 13

TECHNICAL DATA
